LIVE STOCK, CROP, ETC.

—W. H. Whaley shipped a double-deck car load of lambs to Jersey City Thursday night from Austerlitz.

—Scott Hudson shipped his string of twenty-five horses to Oakley for their final training for the grand circuit.

—The blue grass seed on 286 acres of land belonging to Anderson Cheneult, deceased, in Montgomery, was sold at public auction to R. C. Gatewood for \$645.

—Mr. J. B. Haggins has made another addition to his Elmendorf estate by the purchase from Dennis Maloney of a tract of land comprising seventeen acres, situated on the east side of the Maysville pike and adjoining the Elmendorf property. The price paid for the seventeen acres, including the small house situated thereon, was \$5,500, or a little more than \$300 per acre.

—Col. George A. Bain, of Lexington, has returned home, after the most successful trip as an auctioneer in the sale of trotting horses. He says the Tranter-Kennedy sale, at Boston, was one of the most remarkable sales in history, and the way it was conducted was a strong compliment to the young combination salesman, Frank P. Kenney and James Tranter.

—The two thoroughbred brood mares owned by George Voorhes, the new manager of the breeding department at the Elmendorf stud of J. B. Haggins, were sold at public auction Saturday. They were the twelve-year-old chestnut mare, Boroussia, by Imp. Esher, dam Eldora, by Warwick, and the three-year-old bay filly, Falcon Pearl, by Imp. Candlemas. Both mares were purchased by James E. Clay, Marchmont Stud, Paris. He paid \$425 for Boroussia and \$850 for Falcon Pearl.

—This is quite a critical time in the cattle situation, for conditions are such that they will surely show whether there are many cattle available or not. Recent developments would lead one to believe that the supply was small, for advancing prices have failed as yet to cause a rush to market. Even buyers are bullish in their talk and expect to have to pay \$6.50 before the first of July. Another week or two will surely demonstrate the volume of the supply and the temper of the feeders. There is no doubt but what this advance would have come sooner had there been less haste in getting cattle to market two or three months ago.

A Word About Coffee.

Anybody can roast Coffee, but it stands to reason that in order to obtain best results and perfect flavors, the roasting must be done under the direction of an expert coffee blender. Such men demand large salaries and could not be employed by such small concerns as exist in small towns; their salaries range from two to six thousand dollars per year. Now I buy my Coffee from one of the largest concerns in the world. They can afford to pay any price for a coffee blender. The quality is always the same, the flavor never changes. Once you use my Coffee you will always use it. It costs but little more than cheap Coffee, goes farther and tastes better.

ON MISSOURI PACIFIC.

Several People Killed and Injured Near Kansas City.

The "Flyer" Had Orders to Meet the Accommodation at Mastin, But It Is Believed the Crew Overlooked the Order.

Kansas City, June 4.—Nine persons were killed and many injured in a collision of passenger trains on the Missouri Pacific railroad near Mastin City, 15 miles south of Kansas City. The trains, which met head-on, were the westbound Colorado limited No. 1 and the eastbound Hoisington, Kan., accommodation No. 36.

A message received by Missouri Pacific officials here ordered them to send a relief train as soon as possible and to get all the surgeons obtainable, from which it is inferred that numerous passengers were hurt. Newspaper men were not permitted on the relief train, which left about 11 o'clock Friday night. Details of the accident will not be learned until the return of the train with the dead and injured.

Train No. 1, the Colorado "Flyer," had orders to meet train 36, the accommodation, at Mastin. The crew, it is believed, overlooked its orders and met train 36 south of Mastin tank, about one and one-third miles south of Mastin. The engines were both large and were demolished.

Among the dead is a tramp who was riding on the blind baggage. Baggage man Williamson, on train 36, was injured and Engineer Slocum, on No. 1, has a broken leg. Fireman Whaley, on No. 1, was hurt.

The day coach on the accommodation was telescoped, but the chair car was not injured. The mail car on the "Flyer" was telescoped and the end of the baggage car stove in.

JAMES GILLESPIE.

Effort Being Made to Have Him Released From Jail.

Lawrenceburg, Ind., June 4.—Proceedings looking to the release of James Gillespie from jail and Myron Barbour, his wife Carrie and Belle Seward from bond are under way here before Judge Downey. Capt. Coles and his daughter Cynthia filed before Judge Downey, who is holding court here, a writ of habeas corpus, asking for the release of the four defendants. The allegations are that the defendants were placed in jeopardy once when the jury was reopened and then placed in jeopardy when the new jury was sworn, and all placed on trial. This revives the old question of jeopardy that was raised by Capt. Coles and the other attorneys for the defense at the time of the trial. Should Judge Downey rule against them the case will be at once taken to the supreme court.

LOCOMOTIVE ENGINEERS.

Willis, of Clinton, Ia., third assistant grand chief engineer, over four other candidates. C. H. Salmons, of Cleveland, was unanimously re-elected second assistant engineer. The latter situation carried with it the editorship of the official organ of the brotherhood.

A resolution was adopted thanking the members who assisted in saving the life of Engineer A. E. Montague, of Albany, N. Y., who narrowly escaped drowning in the surf at Playa del Rey beach Thursday. Those named in the resolution were: S. A. Stricklett, Columbus, O.; J. H. Buckley, Hartford, Ct.; J. E. Robe, Columbus, O.; W. E. Futch, Cleveland, O.

A RACE WAR IS ON.

Two Whites and Three Blacks Killed at Trail Lake, Miss.

Greenville, Miss., June 4.—As a result of a fight which occurred on the Sims & Williams plantation at Trail Lake, Miss., 30 miles east of here, Thursday night, John Sims and his manager, named Cato, were killed by Negroes and three of the Negroes have been killed also. The country is in a state of intense excitement and it is feared further trouble may ensue between the whites and blacks.

The slaughter started about 10 o'clock Thursday night when Sims and Cato were shot down in their store by a Negro named Sam Clark. Sims was engaged in checking up his cash when Clark came in. Before he could make any kind of a move, Clark raised a Winchester and fired, the shot taking effect first in the back and then breaking the collar bone. He died instantly.

Clark immediately turned on Cato, the manager, who was in another part of the store, shot him in the right side, the ball coming out on the left side.

Cato staggered out of the back of the store and as he reached the door a Negro convict named Van Horn, who was apparently in waiting, struck him over the head with a rifle. Cato died at 7 o'clock Friday morning and the physician gives it as his opinion that the blow over the head caused his death.

News of the tragedy was immediately sent to Greenville and Sheriff John Crouch with a posse went to the scene. The Negroes Van Horn and Clark had made their escape before the posse arrived, but the trail of Van Horn was found and he was tracked about a quarter of a mile into the woods. Here another Negro convict guard named Mayfield interfered with the posse and he was shot down in his tracks.

Van Horn was captured and taken to Leland, 14 miles distant, where he was placed in jail. He remained in jail all night under a strong guard, but at 8:30 Friday morning he was taken out and lynched by a mob. While the sheriff and posse were busy with Van Horn, the other Negro, Sam Clark, returned to the Sims store with the intention, it is said, of killing Buck Williams, the other partner; the bookkeeper, named Crow, who was also at work, and others. Crow, however, after the previous shooting, had armed himself and a Negro who worked about the place, named Aaron Fuller. When Clark made his appearance he was shot and killed by both Crow and Fuller.

It is believed at Trail Lake that the shooting is the outcome of a meeting held in the vicinity of Trail Lake by a Negro secret society, and that the Negroes involved were picked out to do the killing.

Trenton, N. J., June 4.—Nathan Sibbett, the 14-year-old boy who was arrested last Sunday on the charge of being responsible for the death of his mother, whose body was found at her home at Jacobs creek in a partly decomposed condition, was Friday formally committed on a charge of murder. According to the testimony of the officers the lad had a quarrel with his mother on the Tuesday before her body was found and he pushed her from the top of the stairs, her death resulting. The boy then covered her body with bed clothing and left the house.

NEAR PORT ARTHUR.

Japs Capture First Line of Outer Fortifications.

The Russians Made a Feeble Resistance—Japs Have Taken Kwang Tung Heights on Which They Emplaced Artillery.

London, June 4.—The Rome correspondent of the Central News telegraphs:

"A Tokio dispatch to the Giornale d'Italia says that the Japanese have occupied the first line of the outer fortifications of Port Arthur after a feeble resistance."

The correspondent at Tokio of the News Agency Liberas says that four divisions of Japanese troops have occupied Kwang Tung heights on which they emplaced heavy artillery dominating Port Arthur.

The same correspondent adds that the Russian squadron attempted a sortie but was forced to return, being threatened by the Japanese fleet.

St. Petersburg, June 4.—Lieut. Gen. Zilinsky, chief of staff to Gen. Kuropatkin, transmits to the minister of war under date of June 2 a report of Gen. Stoessel dated Port Arthur, May 28, as follows:

"After a fierce battle lasting two days I ordered our positions at Kin Chou to be evacuated in the evening for we had opposed to us at least three divisions with 120 guns."

"Our losses amounted to 20 officers and 800 men killed or wounded. We blew up or damaged all our guns which the Japanese had not put out of action. It would have been inexpedient certainly to bring up siege artillery during the fierce fighting."

Tokio, June 6.—The Russian gunboat Giliak was torpedoed and destroyed at Port Arthur Saturday.

London, June 6.—The Daily Telegraph's Tien-Tsin correspondent wires: "Four thousand Russians belonging to Gen. Stakeberg's brigade on May 31 attacked 1,500 Japanese, occupying a position five miles south of Wafang-tien. The Russians were repulsed losing 200 killed and 400 wounded. The Japanese lost more than 100 killed."

Che Foo, June 6.—Only two miles separated Japanese and Russian armies on the Liao Tung peninsula on June 2, according to Chinese who have arrived here from Dalny. The Japanese army, reinforced by the men who landed at Dalny, occupied Twing Ching and also San Chimpoo, several miles west of Dalny. They then proceeded along the coast toward Port Arthur.

On one side of the army are high mountains and on the other side is the sea, from which the Japanese gunboats are supporting the flank of the army. On June 2, the Japanese forces were within seven miles of the outer forts of Port Arthur, only two miles from the Russian army, which is ready to protest their further advance. The Chinese believed that there would be a big battle at this point. It is also stated by the Chinese that the Japanese have moved their base to Dalny from Tien-Tsin. The larger Japanese ships are anchored outside the smaller ones inside the harbor. Troops are being landed they say from small vessels apparently coming from Pitsewo or the Elliot islands. The Chinese further reported that a large number of Chinese have been shot while attempting to get through the Russian lines.

A Japanese correspondent from Dalny confirms the reported advance of the Japanese army on Port Arthur, news of which was brought here Sunday by the Chinese. The correspondent states, however, that there are 15 miles between the Japanese and Port Arthur, instead of seven, as reported by the Chinese. The Japanese army is advancing along both coasts. It is reported that the peninsular division on the east coast fought a battle within 15 miles of Port Arthur June 3. The result of the battle has not yet been learned.

Washington, June 6.—The Japanese legation Sunday received the following cablegram from the home government at Tokio bearing on events:

Adm. Togo reports that according to a message received by him through wireless telegraphy from the captain of the cruiser Chitose, which was cruising off Port Arthur, four masts, one with wireless telegraphic instruments and a sentry box were seen on the top of Laoteshan. Great explosions were heard and rising of dense smoke was observed repeatedly in the direction of Port Arthur Saturday.

Attack on Gen-San Feared. Seoul, June 6.—The commissioner of customs of Gen-San, Korea, wires that a Russian attack on that place is deemed imminent. He is making preparations to send the women and children to a mountain monastery 20 miles distant.

Illness of Gen. Kuroki.

A BLOODY ENCOUNTER.

Half a Dozen Persons Wounded in a Fight Between Strikers and Officers.

Eveleth, Minn., June 4.—After a bloody and desperate battle with a mob of over 200 mine strikers, in which half a dozen disturbers were seriously wounded, Sheriff Butchart and his deputies Friday succeeded in effecting a temporary cessation of hostilities at the Fayal mines and the officers returned to Duluth late Friday afternoon.

The trouble, which had been brewing for several days, broke out in full blast Friday morning, and the struggle which ensued between the strikers and the officers was desperate while it lasted. As a result two men lie in a serious condition at the Eveleth hospital, one with a bullet wound in his head which may cause his death, and several others received severe injuries during the progress of the affray.

One Will Be Built From Kansas City to Whiting, Ind.

Chanute, Kan., June 4.—A party of Standard oil officials from New York touring the Kansas oil fields in a special train practically admitted to a committee of the Chanute Commercial club that they had decided to recommend the building of an eight-inch pipe line from Kansas City to Whiting, Ind., to care for the Kansas production. The line, it is estimated, will cost \$4,500,000. The purpose of the visit of the officials was to determine whether the production of the local field warranted the expenditure.

Fastidious Tastes.

A story regarding a converted barbarian is told in the English papers and sounds new. A negro clergyman was entertained at tea by the president of a college. The guest, who came from West Africa, retailed some particulars of his early life, when a lady asked him how he became a Christian. "The story of Jezebel converted me," he answered. "You know, we are told the dogs did not touch the palms of her hands. Well, that convinced me of the truth of the narrative, for we never eat the palms of the hands in my country. They are too bitter."—N. Y. Tribune.

Could See Behind.

Mace, the Paris detective, who died recently, is said to have worn a pair of spectacles of his own invention. The lenses were divided into two parts, through one of which he looked ahead upon the ground and with the other saw the people behind him. This is an old idea. Many mothers and grandmothers had something of this kind before the detective was born. They called their perception "seeing through the back of the head." Many of us have been detected ourselves, and we know.—Youth's Companion.

The Age of Chairs.

Chairs were in use in Egypt so long ago as 3399 B. C. The Chinese employed them from about 1300 B. C. In India they were used, and are mentioned as dating from 1100 B. C. House chairs with backs were in use in India A. D. 300. They are known to have been employed in Rome so early as A. D. 70, being mentioned by Pliny at that date. Chairs with foot rests were used in Rome A. D. 150.

Unreasonable.

To be soured by poverty, or to be hardened by it is a mistake—an error of thought. Instead of enjoying our life we are cramping ourselves. It is as if we were set at a feast and sulkily refused to enjoy a few dishes because we could not reach everything on the table and make ourselves sick, like foolish children that we are.—Bliss Carman.

TURN OVER TIME

When Nature Hints About Food.

When there's no relish to any food and all that one eats doesn't seem to do any good then is the time to make a turn over in the diet, for that's Nature's way of dropping a hint that the food isn't the kind required.

"For a number of years I followed railroad work, much of it being office work of a trying nature. Meal times were our busiest and eating too much and too quickly of food such as is commonly served in hotels and restaurants, these together with the sedentary habits were not long in giving me dyspepsia and stomach trouble which reduced my weight from 205 to 160 pounds.

"There was little relish in any food and none of it seemed to do me any good. It seemed the more I ate the poorer I got and was always hungry before another meal, no matter how much I had eaten.

"Then I commenced a fair trial of Grape-Nuts and was surprised how a small saucer of it would carry me along, strong and with satisfied appetite, until the next meal, with no sensations of hunger, weakness or distress as before. "I have been following this diet now for several months and my improvement has been so great all the others in my family have taken up the use of Grape-Nuts with complete satisfaction and much improvement in health and brain power.

"American people undoubtedly eat hurriedly, have lots of worry, thus hindering digestion and therefore need a food that is predigested and concentrated in nourishment." Name given by Postum Co., Battle Creek, Mich. Look in each pkg. for the famous little book, "The Road to Wellville."

Mr. Denis Dundon was then recognized and offered the following substitute:

Resolved, That the following gentlemen be appointed as delegates from Bourbon county, to the State convention which meets at Louisville on June 8, 1904, Vol. Ferguson, W. G. Talbot, J. The Governor Gratified.

Governor Beckham says that he is gratified at the result of the county Democratic conventions held Saturday, and that he is confident that McQuown will be elected chairman of the State Central and Executive Committees by a vote of two to one. He says that it is a vindication of the present State Administration and a refutation of the cry that a political machine exists in the State. Congressman Kehoe claims that he has received the delegate vote of seventy-one counties and will win over McQuown for State chairman by a safe majority.

HEMP-BREAKING MACHINE.—A hemp-breaking machine that is claimed by the inventors will save thousands of dollars to the raisers of this crop, has just been completed by W. E. Patents have been applied for by the inventors.

RACING AT LEXINGTON.—Capt. Sam Brown, the owner of historic race course at Lexington, will put the grounds in first class condition, and in a few years hopes to revive racing in the Bluegrass capital. This will meet with a hearty approval from every horseman in the country, as a running meeting at the old course would prove profitable. Lexington and Central Kentucky could easily support such a move, and it is a disgrace to this part of the country that the track and its surroundings have been neglected.

Wild and Woolly.

Will Longbottom, of Fleming and John Abner, of Hutchison, were in town Friday evening loaded to the guards with bad whisky and looking for trouble. Longbottom met Raymond Brown, colored, on 8th street, and without any provocation knocked him down, and when he resented the attack was shot through and through by the drunken bully, the ball passing through the left lung and making its exit under the shoulder blade. It is thought he will die.

The two "bears" then proceeded to Main street and terrorized the citizens on Upper Main by flourishing their pistols in their faces, etc. The "bear-taker" in the person of Constable Williams, finally arrived on the scene and with the assistance of a posse, one of the "bears," Longbottom, was located on sixteenth street, and was soon landed in jail. Two pistols and a quart of whisky were taken from him. Abner in the meantime caught an interurban car and escaped.

The two were heard to say during the afternoon that they intended to kill a couple of policemen before they left town.

A Lexington Negro Winged.

Albert Wright, who lives on upper Pleasant, was awakened Thursday night by a burglar, and quickly grabbing his pistol met the intruder in his hall and fired. He chased him out of the front door and fired again, when he dropped near his front gate. Mr. Wright did the proper thing and it is the only way to stop this wholesale burglary that has been going on in our community.

The negro proved to be Henry Huston, of Lexington, and it is said implicated five others who were to have participated in a series of burglaries that night. He was hit in the leg and it is quite a serious wound. Let our citizens be prepared to meet these midnight visitors and give them the same medicine administered by Mr. Wright and it may have a tendency to stop them from making such late calls.

TAILORED SUITS.—Ladies' handsome tailored suits at special bargain price for 5 days at Twin Bros' Dry Goods Department.

Conferring of Cross of Honor.

The conferring of crosses of honor by Richard Hawes Chapter, Daughters of Confederacy, upon a number of old veterans here last Tuesday night, at the Christian Church, was one of the most impressive and interesting occasions ever known in this city.

Mrs. R. B. Hutchcraft, in a very graceful and happy manner, made appropriate and brief introductory remarks. A most excellent chorus sang "Maryland, My Maryland" and "Carry Me Back to Old Virginia," and Mr. Hugh Alexander, a grand nephew of Jefferson Davis, sang "My Old Kentucky Home" as a solo, which was highly enjoyed by the old veterans and the large audience present.

The address of Dr. J. L. Webber, of Winchester, was one of the best ever delivered in Paris, and fully sustained the reputation of this gentleman as an orator and scholar.

A Continual Strain.Many men and women are constantly
subjected to what they commonly term
"a continual strain" because of some
financial or family trouble. It wears and
distresses them both mentally and physi-
cally, affecting their nerves badly and
bringing on liver and kidney ailments,
with the attendant evils of constipation,
loss of appetite, sleeplessness, low vitality
and dependency. They cannot, as a
rule, get rid of this "continual strain,"
but they can remedy its health-destroy-
ing effects by taking frequent doses of
Green's August Flower. It tones up
the liver, stimulates the kidneys, insures
healthy bodily functions, gives vim and
spirit to one's whole being, and event-
ually dispels the physical or mental dis-
tress caused by that "continual strain."

"Why, one of the fireproof buildings

in the Early Colonial
Days.**April 23 of this year was the two
hundred and sixty-ninth anniversary
of the first naval battle fought in
American waters. On that date two
armed forces met at the mouth of the
Pocomoke river, within the boundaries
of the province of Maryland, and set-
tled, at least temporarily, the authority
of Lord Baltimore. The settlement at
St. Mary's had been made but 13
months when this test of arms oc-
curred, says the Chicago Chronicle.About three years before the land-
ing of the Maryland pilgrims under
Gov. Leonard Calvert, by virtue of the
grant of the territory from Charles I.,
a trading post had been established by
William Claibourne, of Virginia, on
Kent island. It was not a settlement
intended for permanent homes and the
tilling of the soil, but merely a place
fixed upon by Claibourne for conven-
ience of trade with the Indians. Kent
island was clearly within the jurisdic-
tion of Lord Baltimore, but Claibourne
very foolishly resisted his authority
and refused to take out a trader's li-
cense from the proprietary's govern-
ment at St. Mary's. This stubborn
stand of Claibourne resulted in the
capture early in the year by Capt.
Thomas Cornwaleys, one of the Mary-
land commissioners, of a vessel be-
longing to Claibourne for trading in
the waters of the Chesapeake without
a Maryland license.Claibourne realized now that he
would either have to break down Lord
Baltimore's authority by force of arms
or be compelled to submit to that au-
thority. He chose to fight and, accord-
ingly, he fitted out an armed boat, the
Cockatrice, which was manned by 30
men and placed under the command of
Lieut. Radcliffe Warren, who was com-
missioned by Claibourne "to seize and
capture any pinnacles or other vessels
belonging to the government of St.
Mary's."This was a declaration of war and
when the news of the rebellion reached
Gov. Calvert he at once determined to
put it down, as becomes a governor
whose rights are denied and whose au-
thority is defied. Knowing the strength
of the insurgents, he wisely fitted out
a superior force, with the full determina-
tion to crush the spirit that was giv-
ing him no little trouble. So he
manned and commissioned two vessels
—the St. Margaret and the St. Helena
—placed them in command of the gal-
lant Capt. Cornwaleys, with orders to
search out and destroy the enemy and
reduce Kent island to submission.The little squadron sailed out from
St. Mary's with the Maryland colors
flying from the flagship and animated
by the same courageous spirit that two
and a half centuries later inspired an-
other Maryland naval commander in
his gloriously successful search for the
Spanish fleet in the waters of the West
Indies. Their course took them across
the bay and soon they were rewarded
by sighting the sails of the insurgent
ship off the mouth of the Pocomoke.
Cornwaleys skillfully maneuvered his
little fleet so as to prevent the escape
of the enemy and both sides cleared
for action. The insurgents delivered
the first fire, and so true was the aim
that William Ashmore, of the Mary-
landers, fell to the deck, the first
American sailor whose life was sacri-
ficed while in action upon the altar of
duty. The sight of their dead comrade
inspired the Maryland men to greater
determination, and made more deadly
their aim and threefold more terrible
their revenge. Their first fire killed
the enemy's commanding officer—
Lieut. Warren—and two of his crew.
The insurgents having lost their leader
and two of their comrades and seeing
certain destruction staring them in the
face, were brought to realize that dis-
cretion was the better part of valor and
therefore they wisely struck their col-
ors and surrendered themselves and
their vessel to the victorious Mary-
landers.Kent island was afterwards subdued
and Claibourne stripped of his posses-
sion. But he did not cease to be a
source of great trouble to the settlers
of St. Mary's and more than once suc-
ceeding in destroying, for a time, the
government of Lord Baltimore. But
that belongs to another story.**Far from Home.**Relative—I notice that you have at last

HOW TO PRONOUNCE HY-OMEL.

Clarke & Co. Tell of This Remarkable Treatment Cures Catarrh Without Stomach Dosing.

"While all our customers who have used Hyomei agree that it is remarkably successful in curing catarrh and other diseases of the air passages," says Clarke & Co., "yet there has been considerable diversity of opinion as to how the name is pronounced."

"Hyomei is pronounced just as if it were spelled 'high-o-me,' with the accent on the first syllable."

"A great many come to our store and instead of asking for Hyomei, tell us they want a package of the treatment for catarrh that we are selling on a guarantee."

"While we know what they mean and all of our clerks will give them Hyomei, yet we want every one to know how to pronounce the name of Hyomei, so that they may run no chance of getting anything but Hyomei, no matter where they go."

"It is nature's true cure for catarrhal troubles. It kills the germs of this disease, soothes and heals the irritated mucous membrane, and effectually drives

all catarrhal troubles from the system.

"All the stomach dosing in the world can do no lasting good in the treatment of catarrh unless the nose and throat are free from catarrhal microbes. There is no stomach dosing with Hyomei; just breathe it."

"We have so much confidence in the value of the treatment, that we are selling it with the understanding that we will return the money if it fails to cure. All the NEWS readers know that we do exactly as we agree."

Revolution Imminent.

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the Kidneys and Bowels, stimulate the Liver, and clarify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c, and that is returned if it doesn't give perfect satisfaction. Guaranteed by Oberdorfer, the druggist.
